

March 2023

Another quiet month enlivened by the quiz on Zoom organised by Chris & Gill in which Tim & Christine came out on top. Richard also showed a video from the USA comparing the merits of the various models of Sprite/Midget and concluding that a rubber-bumper is still viable transport for long journeys on American freeways...that's brave considering the size of most other vehicles over there! So, roll on April when the season really gets under way with the pre-season lunch, Spring Saunter and Drive-it Day to look forward to. All the details are on the website as usual.
